PURPOSE:

The intent of this clinical policy is to ensure services are medically necessary.

Please refer to the member's benefit document for specific information. To the extent there is any inconsistency between this policy and the terms of the member's benefit plan or certificate of coverage, the terms of the member's benefit plan document will govern.

POLICY:

Benefits must be available for health care services. Health care services must be ordered by a provider. Health care services must be medically necessary, applicable conservative treatments must have been tried, and the most cost-effective alternative must be requested for coverage consideration.

Health care services that are *cosmetic* are not considered medically necessary and therefore, not eligible for coverage.

Health care services that are *reconstructive* (ie, performed for an injury, sickness, congenital disease or anomaly) causing a *functional defect/physical impairment* or clinically significant distress or impairment are not considered *cosmetic*.

GUIDELINES:

Medical Necessity Criteria for the removal of skin tags – must satisfy any of the following: I – III

- I. Skin tag removal – any of the following: A or B
 - A. ETF Health Plan (Wisconsin Department of Employee Trust Funds) – excludes coverage for skin tag removal; or
 - B. All other plans/groups - documentation supports the following: 1, and either 2 or 3
 1. Symptoms related to skin tags are unresponsive to conservative management (if applicable); and
 2. Chronic inflammation/irritation, bleeding, or pain; or
 3. Difficulty with *activities of daily living*.
- II. *Lipoma* removal – documentation supports the following for each *lipoma* being removed: A, and any of B - D
 - A. The specific anatomic location of each *lipoma*; and
 - B. *Lipoma* is symptomatic (such as, but not limited to, pain at rest, airway difficulty, joint dysfunction, intestinal obstruction or hemorrhage); or
 - C. *Lipoma* inhibits the member's ability to perform *activities of daily living* due to the lipoma's location on body parts that are subject to regular touch or pressure (such as, but not limited to, on scalp and is repeatedly nicked by barbers, or on back of head and causes discomfort when sleeping); or

- D. Removal of a solitary *lipoma* that is suspicious for malignancy - must satisfy the following: 1, and any of 2 - 4
1. It will be submitted to pathology; and
 2. It is fast growing; or
 3. There is a change in consistency; or
 4. It is located in the retroperitoneum or on the shoulders or upper thigh.

III. Skin tag or lipoma causing a psychological condition – any of the following: A or B

- A. ETF Health Plan (Wisconsin Department of Employee Trust Funds) – excludes coverage for psychological reasons; or
- B. All other plans/groups – must have both of the following: 1 and 2
1. There must be documentation from a *mental health professional*, that the member's clinical condition meets the diagnostic criteria for a *DSM* mental disorder diagnosis (eg, anxiety disorder, major depressive disorder, body dysmorphic disorder) causing *clinically significant* distress or impairment as evidenced by validated scales and measures - must satisfy either of the following: a or b
 - a. Clinically significant distress is defined as a score of 2 standard deviations (SD) from the mean, by a disorder-specific symptom rating scale such as the Appearance Anxiety Inventory; or
 - b. Clinically significant impairment is defined as a World Health Organization Disability Schedule (WHODAS) General Disability Score (GDS) of 2.6 using the current 0-4 scoring convention. (See Attachment A).
 2. Where applicable, there must be documentation that the member has not responded to, is intolerant to, or a poor candidate for other appropriate or conservative treatments for the member's clinical condition (eg, psychotherapy).

EXCLUSIONS (not limited to):

Refer to member's Certificate of Coverage or Summary Plan Description.

DEFINITIONS:

Activities of Daily Living (ADL):

Activities related to personal self-care and independent living, which include eating, bathing, dressing, transferring, walking/mobility, and toileting/continence.
