

Department of Origin: Integrated Healthcare Services	Effective Date: 09/10/24
Approved by: Medical Policy Quality Management Subcommittee	Date Approved: 09/10/24
Clinical Policy Document: Radiation Therapy, Neutron Beam	Replaces Effective Clinical Policy Dated: 09/28/23
Reference #: MC/L024	Page: 1 of 3

PURPOSE:

The intent of this clinical policy is to ensure services are medically necessary

Please refer to the member’s benefit document for specific information. To the extent there is any inconsistency between this policy and the terms of the member’s benefit plan or certificate of coverage, the terms of the member’s benefit plan document will govern.

POLICY:

Benefits must be available for health care services. Health care services must be ordered by a provider. Health care services must be medically necessary, applicable conservative treatments must have been tried, and the most cost-effective alternative must be requested for coverage consideration.

GUIDELINES:

Medical Necessity Criteria – Request for neutron beam therapy for the treatment of salivary gland tumors – Must satisfy any of the following: I - III

- I. Inoperable tumor; or
- II. Locally advanced tumor especially in persons with gross residual disease; or
- III. Unresectable tumor.

EXCLUSIONS (not limited to):

Refer to member’s Certificate of Coverage or Summary Plan Description

Neutron beam therapy is investigative for all other indications including, such as but not limited to (see Investigative List): I - XI

- I. Colon cancer
- II. Dermatofibrosarcoma protuberans
- III. Ghost cell odontogenic carcinoma
- IV. Glioma
- V. Kidney cancer
- VI. Laryngeal cancer
- VII. Lung cancer
- VIII. Pancreatic cancer
- IX. Prostate cancer
- X. Rectal cancer
- XI. Soft tissue sarcoma

BACKGROUND:

Most radiation therapies utilize photons -- lightweight particles that damage cancerous cells. Neutron beam radiation therapy (NBRT) uses neutrons, which are much heavier than photons and appear to be more effective in destroying very dense tumors. Compared to roentgen ray (X-ray), neutrons are characterized by several properties:

- reduced oxygen enhancement factor,
- less or no repair of sub-lethal or potentially lethal cell damage, and
- less variation of sensitivity through cell cycle.

NBRT is a specialized type of EBRT that uses high energy neutrons (neutral charged subatomic particles). The neutrons are targeted toward tissue masses that are characterized by lower tumor oxygen levels and a slower cell cycle, since neutrons require less oxygen and are less dependent on the cell's position in the cell division cycle. Neutrons impact with approximately 20 to 100 times more energy than conventional photon radiation and may be more damaging to surrounding tissues. For that reason, the radiation is delivered utilizing a sophisticated planning and delivery system.

Neutron beam therapy entails the use of a particle accelerator; protons from the accelerator are deflected by a magnet to a target which creates the neutron beam. Neutron beam therapy has been employed mainly for the treatment of the salivary gland cancers. It has also been used to treat other malignancies such as soft tissue sarcoma (STS) as well as lung, pancreatic, colon, kidney and prostate cancers. Nevertheless, NBRT has not gained wide acceptance because of the clinical difficulty in generating neutron particles. It should be noted that NBRT is different from boron neutron capture therapy (BNCT), which is a radiotherapy based on the preferential targeting of tumor cells with non-radioactive isotope (10)B and subsequent activation with thermal neutrons to produce a highly localized radiation, and is often used to treat brain tumors. In BNCT, the patient is given a drink containing boron, which is taken up by tumor cells. The tumor is then irradiated with a neutron beam, causing the boron to split into two highly energetic particles (helium and lithium) that destroy the cancerous cells while largely sparing adjacent healthy cells.

Nondiscrimination & Language Access Policy

Discrimination is Against the Law. Aspirus Health Plan, Inc. complies with applicable Federal civil rights laws and does not discriminate on the basis of race, color, national origin, age, disability, or sex, (including sex characteristics, including intersex traits; pregnancy or related conditions; sexual orientation, gender identity and sex stereotypes), consistent with the scope of sex discrimination described at 45 CFR § 92.101(a)(2). Aspirus Health Plan, Inc. does not exclude people or treat them less favorably because of race, color, national origin, age, disability, or sex.

Aspirus Health Plan, Inc.:

Provides people with disabilities reasonable modifications and free appropriate auxiliary aids and services to communicate effectively with us, such as:

- Qualified sign language interpreters.
- Written information in other formats (large print, audio, accessible electronic formats, other formats).

Provides free language assistance services to people whose primary language is not English, which may include:

- Qualified interpreters.
- Information written in other languages.

If you need reasonable modifications, appropriate auxiliary aids and services, or language assistance services, contact the Nondiscrimination Grievance Coordinator at the address, phone number, fax number, or email address below.

If you believe that Aspirus Health Plan, Inc. has failed to provide these services or discriminated in another way on the basis of race, color, national origin, age, disability, or sex, you can file a grievance with:

Nondiscrimination Grievance Coordinator
Aspirus Health Plan, Inc.
PO Box 1890
Southampton, PA 18966-9998
Phone: 1-866-631-5404 (TTY: 711)
Fax: 763-847-4010
Email: customerservice@aspirushealthplan.com

You can file a grievance in person or by mail, fax, or email. If you need help filing a grievance, the Nondiscrimination Grievance Coordinator is available to help you.

You can also file a civil rights complaint with the U.S. Department of Health and Human Services, Office for Civil Rights, electronically through the Office for Civil Rights Complaint Portal, available at <https://ocrportal.hhs.gov/ocr/portal/lobby.jsf>, or by mail or phone at:

U.S. Department of Health and Human Services
200 Independence Avenue, SW
