

ETF – WI Medical Prior Authorization List

Effective January 1, 2024

The following is a list of medical/surgical services which require prior authorization for contracted providers. The Plan has made every effort to ensure this list is comprehensive. The fact that a particular service is not included on the list does not mean that such service is otherwise covered. For details on Pharmacy prior authorization requirements, please contact Customer Service.

Note: While it is expected that prior authorization is obtained before services are rendered, the Plan reserves the right to conduct medical necessity reviews at the time the claim is received if no authorization was previously requested. Additionally, it is recommended that prior authorization be obtained before services are rendered by non-contracted providers, and the Plan reserves the right to conduct a medical necessity review at the time a claim is received if no authorization was previously requested. Procedures that are normally done as an inpatient but are planned as outpatient and converted to inpatient post-operatively may also be subject to a medical necessity review.

Benefits must be available for health care services. Health care services must be ordered by a provider. Health care services must be medically necessary, applicable conservative treatments must have been tried, and the most cost-effective alternative must be requested for coverage consideration. Please call the customer service number on the back of the member's ID card to verify the specific requirements of the member's plan.
