

COVID-19 Provider Billing Guidance Update – Vaccine & Vaccine Administration Codes – March 1, 2021

Prior Guidance: To submit bills with the appropriate vaccine administration codes without reporting the vaccine administration code. This was per state and federal guidance.

New Guidance: Submit all claims with both the appropriate vaccine administration codes and the appropriate corresponding vaccine administration code with the SL (State supplied vaccine) modifier appended.

Purpose: For reporting and tracking purposes of distribution, administration, and coverage of all vaccines at the state level.

Preferred One is NOT requiring that prior claims be re-submitted. Moving forward, Preferred One will follow the new guidance issued above.

For ease of correct, compliant coding & billing submission, the following resource has been issued by the AMA : [Find your COVID-19 Vaccine CPT® Codes | American Medical Association \(ama-assn.org\)](#) (See table below)
